

Electrical safety kit for working on 11KV high tension line or pannel bord this kit is require. It consist of following items.(1) flame resistant(FR) Electric Arc Protection coverall (2) Electrical hand gloves class IV (3) Insulating mat class I (4) First Aid Chart (5) Ambu bag (6) Discharge Rod (7)First Aid Kit & (8)Thermo plastic bag. Details of each item is given bellow

SR.NO.	Name Of Items	Technical Specification	Approval	Photos	GST
1	Electric arc suit 30Cal/cm2	Pro-ARC: Eco- 30 Cal/ cm2 Coverall.Outer layer made of fire Retardant aramid fabric, Inner layer FR aramid fabric, elasticsized waist, suit consist of Jacket, Pant and hood with Visor	ISO 11612-2015 NFPA 70E, EN 61482-1-1+2 61482-1-2		12%
2	Electrical Hand gloves class IV	It is made from natural rubber latex samless hand gloves.Test voltage 40000 and working potential 36000 volt, length 400mm. It confirms specification ISI 13374/1993 class IV	ISI:13774/1993		18%
3	Insulating Mat	It is made from bland of synthetic polymers material.grip design. Size 1MeterX2MeterX3milimeter, system voltage 33000 volt, breakdown voltage 65000volt.it is used to prevent from electric shock.	IS: 15652/2006		18%

4	First Aid Chart	First aid chart for electrical shocks & its treatment management is printed with photographs in english & hindi on 50X 70cm plastic roll.It is self explanatory. It can easily hang on wall.			N/A
6	Ambu Bag with accessories	It is a manual self inflating bag (resuscitator).It is hand held device used to provide pressure ventilation to patients who are not breathing adequately. It consist of Peep valve, self inflating bag, air inlet & press release valve. Also 2600 ml Oxygenreservoir bag is provided. All items are provided in one pouch.			12%
7	Discharge Rod	Discharge rod consist of insulating tube, C type clamp, Flexible copper cable and rubber grip. Earthing rod suitable for 11/33 KV line.it is telescopic type 4 section, made from FRP pipe, total length 18 feet. It is used for high voltage electric line and equipments.	test certificate available		18%
8	First Aid Kit	First aid kit box made from MS is provided for quick primary relief to victim. it consist of 113 pieces made from 26 items of various types including general medicines, small, medium and major wounds etc. lifting with handle is provided for easy handling. it is suitable upto 50 employee for work place.			12%
